Jbru95@outlook.com, [Jbru95.github.io](https://github.com/Jbru95)

Software Engineer with a demonstrated history of developing vibrant Desktop and Web Applications. Skilled in JavaScript, Angular, C#, SQL, and Python. Aspiring to obtain a developer position to contribute at a high level to a competitive company and further my working knowledge of software systems and development strategies.

EXPERIENCE

JULY 2018 – PRESENT

SOFTWARE ENGINEER 1, JERVIS B. WEBB COMPANY – NOVI, MI

- Developed, tested, and maintained multiple large-scale Angular front-end base applications concurrently, providing rich user interfaces for multiple company systems.
- Fully integrated front-end applications with C# backend/APIs, SQL Server database, and Internet Information Services (MS IIS).
- Developed customizations for base applications based on individual client needs
- Created and updated requirements/usage documentation for developed applications

MAY 2017 – AUGUST 2017

SOFTWARE DEVELOPMENT INTERN, DEMATIC – GRAND RAPIDS, MI

- Designed and developed a dynamic data architecture system to autonomously collect, store, analyze, and display scrum team developer performance, freeing up 25 work days per year
- Performed regression testing/unified functional testing on in-development applications
- Gained experience with AGILE methods and participated in scrum team operations

MAY 2015 – JULY 2018

STRATEGIC SUPPORT ASSOCIATE, JACKSON NATIONAL LIFE – EAST LANSING, MI

- Performed clerical duties such as data entry and initiating funds transfers
- Reviewed software application requests and pushed apps to employee's virtual desktops
- Worked a special project developing correct formatting of company intranet content
